Care & Maintenance Guide

Flowering Tropical Patio Pots

BRAIDED HIBISCUS – Full Sun

Perfect for decks and patios; bloom throughout spring and summer months. A beautiful profusion of brightly colored flowers in red, orange, pink, and yellow. Prefer full sun (6+ hours daily). Keep soil moist, do not let dry out.

\$40

MANDEVILLA TRELLIS – Full Sun

Perfect patio/landscape plant; vine extensively and will cover walls, arbors, or columns. Bloom in pink, red, yellow and white and stay in color all summer. Prefer full sun (6+ hours daily). Keep soil moist, do not let dry out.

\$40

BOSTON FERN

– Partial Sun/Full Shade

Popular houseplants that are unique for their attractive and graceful cascading green fronds. Thrive with moderately moist soil and moderate/filtered light. Lightly mist with room temperature water periodically; do not let soil get too dry.

\$32

FLOWERING COMBO – Full Sun

Prefers full sun locations (6+ hours daily). Water as needed; avoid over watering as roots need to dry between waterings. Trim as needed to control shape later in the season.

\$32

FLOWERING COMBO – Full Sun

Prefers full sun locations (6+ hours daily). Water as needed; avoid over watering as roots need to dry between waterings. Trim as needed to control shape later in the season.

\$35

Hanging Baskets

IMPATIENS – Shade

Gorgeous blooms; colorful and visually attractive. Plant in part sun/shade (at least 4-6 hours of shade). Keep soil moist; do not let dry out. Remove old flowers periodically. Grown from cuttings, not seeds.

\$20

GERANIUM – Full Sun

Provide brilliant color; spread profusely. Prefer full sun (6+ hours daily). Once established, very heat and drought tolerant. Keep soil slightly moist; avoid wetting the foliage prior to night time.

\$20

SUNPATIENS – Full Sun

Garden success has never been simpler with easy-to-plant, easy-to-grow SunPatiens. The thicker petals and tough foliage are less prone to disease, and their strong sturdy stems tolerate high heat and humidity, rain and adverse weather conditions. SunPatiens thrive in full sun.

\$20

WAVE PETUNIA – Full Sun

Provide brilliant color; spread profusely. Prefer full sun (6+ hours daily). Once established, very heat and drought tolerant. Keep soil slightly moist; avoid wetting the foliage prior to night time.

\$20

Patio Pots

FLOWERING COMBO – Full Sun
